

Questionnaire - Development of Antibodies and/or ELISAs for Pharmacokinetic (PK) and/or Immunogenicity Studies

Service Required:

- Antibody development
- ELISA development
- ELISA validation (performed by collaboration partner)
- Sample measurement (performed by collaboration partner)

Our partner Eurofins Munich is an expert in validation and sample determination in accordance with GLP.

Are you interested in outsourcing these services to Eurofins? _____

ELISA Required:

- Pharmacokinetic ELISA
- Immunogenicity ELISA

Are you working with the following therapeutics / biosimilars?

- Infliximab
- Adalimumab
- Trastuzumab
- Rituximab
- Tocilizumab
- Golimumab
- Other, please specify: _____

- Originator
- Biosimilar

Clinical phase of the development: _____

Specification of your drug

- MW** _____
- Buffer** _____
- Concentration** _____

Do you already have suitable antibodies for the ELISA development?

- Yes, I have....
- No, I need.....
 - specific pAb as control
 - specific mAb (capture and detector)
 - anti-idiotypic mAb

Do you already have samples from studies available? _____

Could you provide samples from untreated patients (negative control)? _____

Do you have your own test laboratory? _____

Where would you like the ELISA to be transferred to? _____

Time schedule for the project: _____

Do you have any further remarks or questions?

Company _____
