

## QUESTIONNAIRE – ANTIBODY PRODUCTION FROM PRE-EXISTING HYBRIDOMA CELLS

Please fill out this form as a prerequisite for planning and specifying the major steps of the respective project.

It will also be used as the basis for quotation and further discussion of project details.

All information provided including the client information at the end of this questionnaire will be treated strictly confidential. A nondisclosure agreement can be signed upon request.

**Please be aware that BioGenes is not able to accept requests for antibody production from any genetically modified cell lines (GMO)**

### 1. CELL LINE INFORMATION

#### 1.1 TYPE & NAME OF CELL LINE

Murine hybridoma                       Mixed species hybridoma                       Human hybridoma

Parent myeloma                       Other. Please specify: \_\_\_\_\_

Please enter name of cell line: \_\_\_\_\_

#### 1.2 CELL LINE SAFETY TESTING

**Has the provided cell line been tested for the following contaminants:**

***Mycoplasma spec.***

No                       Yes                      Result: \_\_\_\_\_

If yes, which assay system was used? \_\_\_\_\_

**Virus (please specify which virus types):**

No                       Yes                      Result: \_\_\_\_\_

If yes, which assay system was used? \_\_\_\_\_

# QUESTIONNAIRE – ANTIBODY PRODUCTION FROM PRE-EXISTING HYBRIDOMA CELLS

Further testing for biological activity and potential hazardous components:

---

## 2. ANTIBODY/ PRODUCT SPECIFICATION (PLEASE SPECIFY)

Monoclonal antibody (Ig class, subclass) \_\_\_\_\_

pH of best product stability: \_\_\_\_\_

pl of product in solution: \_\_\_\_\_

## 3. ANTIBODY TARGET INFORMATION

### 3.1 AVAILABILITY OF ANTIGEN (PREREQUISITE)

No       Yes      If yes, specify form: \_\_\_\_\_

### 3.2 AVAILABILITY OF TEST SYSTEMS

No       Yes      If yes, specify kind: \_\_\_\_\_

## 4. CELL LINE CULTIVATION SPECIFICATION (PLEASE PROVIDE INFORMATION)

### 4.1 SHIPMENT AS CRYO CULTURE (PREREQUISITE: 3 VIALS FROM ONE BATCH)

Average number of cells per vial: \_\_\_\_\_ Freitext Feld

Composition of the freezing medium used: \_\_\_\_\_ Freitext Feld

### 4.2 CELL CULTURE MEDIUM TO BE PREFERABLY USED

Basal medium (please specify): \_\_\_\_\_

Serum added (please specify type and final concentration): \_\_\_\_\_

Serum-free medium (please specify type): \_\_\_\_\_

Other components included (please specify) \_\_\_\_\_

# QUESTIONNAIRE – ANTIBODY PRODUCTION FROM PRE-EXISTING HYBRIDOMA CELLS

## 4.3 CELL CULTURE SYSTEM CURRENTLY USED

Flask, fermenter or other (please specify size) \_\_\_\_\_

Final cell density for harvest [cells per mL] \_\_\_\_\_

## 5. ADDITIONAL INFORMATION

---

### CLIENT INFORMATION

Company/Institution name: \_\_\_\_\_

Contact person: \_\_\_\_\_

Address: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Phone: \_\_\_\_\_

Email: \_\_\_\_\_
